

25 March 1971

MEMORANDUM FOR: Foreign Missile and Space
Analysis Center Employees

SUBJECT : Guidelines for FMSAC Support to
Employee Education

1. The attached Guidelines for FMSAC Support to Employee Education were formulated by the Career Service Panel at its last meeting. These guidelines, which essentially reiterate those circulated to FMSAC employees on 2 June 1969, are being circulated so that all personnel will be equally aware of the various criteria which are considered during the training approval process. They should be interpreted in the context of a basically liberal attitude on the part of FMSAC management toward job-related training.

2. Specific questions related to training matters not covered in the guidelines may be addressed to the Executive Staff as they arise.
